On October 13, 2005, CC VIII Operating, LLC ("CCVIII Operating"), Charter Fiberlink, LLC ("Charter Fiberlink") (CCVIII Operating and Charter Fiberlink collectively referred to as "Charter"), and Seren Innovations, Inc. d/b/a Astound Broadband ("Seren," together with Charter, the "Applicants"), filed an application, pursuant to sections 63.03 and 63.04 of the Commission's rules,¹ requesting authority for consent to transfer to Charter certain tangible and intangible assets and related liabilities of Seren used or useful in providing domestic interstate services.²

Applicants assert that this transaction is entitled to presumptive streamlined treatment under section 63.03(b)(2)(i) of the Commission's rules because after the proposed transaction: (1) Charter will have a market share in the interstate, interexchange market of less than 10 percent; (2) Charter will provide competitive services exclusively in areas served by dominant local carriers that are not parties to the proposed transaction; and (3) neither of the Applicants are dominant with respect to any domestic service, and will not become dominant with respect to any domestic service after consummation of the proposed transaction.³

¹ 47 C.F.R. §§ 63.03, 63.04; *see* 47 U.S.C. § 214.

² Applicants are also filing applications for transfer of control associated with authorization for international services. Any action on this domestic 214 application is without prejudice to Commission action on other related, pending applications.

³ 47 C.F.R. § 63.03(b)(2)(i).
